🪪 Profile

Skilled Software Engineer specializing in frontend development and UI/UX design. Proficient in HTML, CSS, JavaScript, and React, with a focus on creating user-centered, scalable, and responsive applications. Excels in fast-paced settings, collaborating across teams to deliver impactful software solutions. Ready to bring technical expertise and problem-solving to a growth-focused organization

🧠 Skills

React.js | Javascript | Redux | HTML5 | CSS3 | Tailwind CSS | Material UI | React-Router | Git

📁 Projects

Cleaning Service Website ⧉

Developed and launched a cleaning service website as a **freelance project** for a **client's business**, managing **design**, **development,** and **hosting**. Used **HTML, CSS,** and **JavaScript** to build a **responsive site** with a **contact form** that emails the business owner directly for inquiries.

GYM WEBSITE

Created a gym website for self-learning using **React.js** and **React Router** for seamless navigation. **Integrated Rapid API** for **exercise searches** and **YouTube API** for relevant **exercise videos**. Styled the interface with **Material-UI** for a user-friendly and **responsive design,** ensuring intuitive navigation.

Food-Delivery

Developed a food delivery web app using **React.js**, featuring **add-to-cart functionality**, **quantity management**, and a streamlined **checkout process** with a user-friendly form.
